CENSUS OF MASSACHUSETTS — 1955

GENERAL INTRODUCTION

In accordance with the provisions of General Laws, Tercentenary Edition, Chapter 9, section 7, as amended, and Article XXI of the Amendments to the Constitution as appearing in Article LXXI thereof, a census of the inhabitants of Massachusetts as of January 1, 1955, was taken under the jurisdiction of the mayor of each city and the selectmen of each town on forms provided by the Secretary of the Commonwealth and in accordance with his instructions. This census consisted of enumerating the inhabitants of each municipality by name, address, sex, and age on family cards. Further information was taken on persons 16 years of age and over as to their being employed or unemployed. It was further amplified to show the classifications of housewife, student, retired and veteran and if a veteran of which war or wars. The cards, together with a sworn statement of the total number of persons enumerated, were forwarded to the office of the Secretary from each of the 351 municipalities in the Commonwealth for verification and tabulation.

In accordance with the provisions of General Laws, Tercentenary Edition, Chapter 9, section 6, as amended, the special enumeration of legal voters required by Articles XXI and XXII of the Amendments to the Constitution as appearing in Article LXXI thereof, was determined by obtaining a sworn statement from the election commissioners or registrars of voters in each city and town of the Commonwealth, of the number of registered voters in their respective cities or towns on January 1, 1955, specifying in the case of cities the number of registered voters in each ward, and in towns of twelve thousand inhabitants or over which vote in precincts, the number of registered voters in each precinct.

TABLE 1. — POPULATION OF MASSACHUSETTS FOR 190 YEARS, AS DETERMINED BY CENSUS ENUMERATIONS, 1765-1955.

[The Commonwealth of Massachusetts covers part of the territory originally granted to the Plymouth Company of England. It grew out of the consolidation of the colonies of Plymouth and Massachusetts Bay. The settlement at Plymouth began with the landing of the Pilgrims, December 22, 1620. The colony of Massachusetts Bay originated with the settlement under John Endecott at Salem, in 1628. In 1643, a confederacy was formed consisting of the colonies of Massachusetts Bay, Plymouth, Connecticut and New Haven. In 1692, under a new charter given by William III, the colonies of Massachusetts Bay and Plymouth were consolidated as a royal province, including also Maine. In 1780, after the Revolution, the present State Constitution was adopted. In February, 1788, the Constitution of the United States was ratified by Massachusetts. The colonists in New Hampshire, in 1641, as a measure of protection and defence against the Indians, allied themselves with the colony of Massachusetts Bay and remained part of said colony until 1679, when New Hampshire was made a separate royal province, Massachusetts thereby losing part of its territory, January 1, 1680. The territory now comprising the State of Maine was set off from Massachusetts by an act passed March 3, 1820, taking effect March 15, 1820. By the Province Charter of 1692, certain islands now comprising the county of Dukes County and Nantucket County were ceded to Massachusetts from New York (see county of Dukes County). Certain common lands in Berkshire County, known as the District of Boston Corner, were ceded to the State of New York May 14, 1853. By a settlement of a boundary controversy between Massachusetts and Rhode Island, certain exchanges of territory were made between these States April 10, 1861.]

¹ Includes 1,569 Indians distributed by counties as follows: Barnstable, 515 (of which 230 were in Mashpee); Berkshire, 221 (in Stockbridge); Bristol, 167 (principally in Dartmouth and Freetown); Dukes, 313 (of which 188 were in Chilmark); Middlesex, 37 (in Natick); Nantucket, 93; Plymouth, 223.

² Includes 4,761 colored population, distributed by counties as follows: Barnstable, 171; Berkshire, 216; Bristol, 585; Dukes, 59; Essex, 1,049; Franklin, Hampden, and Hampshire (aggregate), 245; Middlesex, 702; Nantucket, 133; Plymouth, 487; Norfolk and Suffolk (aggregate), 682; Worcester, 432.

³ The discrepancy which may be noted between the State and the United States Census figures for 1840 and 1850 is, partly at least, due to the exclusion from the State enumeration in those years of "paupers and convicts in the State Prison."

The net land area of Massachusetts for the census of 1955 is 7,838.7 square miles as compared with 7,876.3 square miles in 1935. The reduction of 37.6 square miles was occasioned by a taking by the Metropolitan Water Commission, under chapter 240 of the Acts of 1938, for Metropolitan water supply purposes.

Using the figure 7,838.7 square miles since 1940, and the figure 7,876.3 square miles for former periods, the following population densities are indicated:—

YEAR.	Persons per Square Mile.	YEAR.	Persons per Square Mile.
1955	617.1	1920	489.1

³Estimated.

⁴By the Census of May, 1840, the population of Boston was 84,401. Mr. Lemuel Shattuck, in his report on the Census of Boston for 1845, shows clearly that the United States Census of 1840 was incorrect.

⁵Included also in the population of Dorchester in this year. After 1855 Washington Village is included in South Boston.

⁶The population of East Boston (i.e., the present Ward 1), as usually given in census tables, includes that of the islands in the harbor, but is here given separately, so that it should be understood that the total ward population, popularly referred to as "East Boston," includes the figure for both these columns.

⁷ The territory of Roxbury and Dorchester was not kept intact by ward boundaries in the ward division of 1875. It is difficult, therefore, to give the exact population of each district by the Census of 1880. The figures given are the result of very careful study of the population by census enumeration districts, of which there were 208 in Boston for the United States Census of 1880.

⁸ Population of the islands included in that of East Boston.

⁹ The figures presented for South Boston, Dorchester, Roxbury and West Roxbury are carefully made up to cover the geographical area originally belonging to each subdivision. The lines enabling this to be done were not exactly observed in the Censuses of 1875, 1880, 1885, 1890, or 1895. In each of these years, therefore, the population of the subdivisions, as stated in the table, is approximate only, inasmuch as the area considered under each head was approximate. But while it is a mechanical impossibility to so lay out the enumeration districts as to enable a presentation to be made of the exact population of these subdivisions following their original boundary lines, in view of the greater obligation to present the population by wards whose boundaries do not conform to the original boundaries of the subdivisions in question, the tabulations for these subdivisions are presented with much greater accuracy for the Censuses of 1900, 1905, 1910, 1915, 1920, 1925, 1930, 1935, 1945 and 1955 than for preceding censuses. Comparisons of the figures between 1875 and 1955 are somewhat affected, therefore, by this fact. As these several subdivisions, moreover, have no political significance, not being represented as such in the frame of government, and have what may be termed an artificial existence only, the tabulation as given above for each census may be accepted for all practical purposes as representing as approximately accurate a presentation as it is possible to give.
